MENTOR BLURB

As I prepare to graduate and begin residency, I find myself reflecting on my time as a financial success mentor. I am honored to have connected with fellow students - sharing insights and helping them navigate a variety of financial complexities. It has challenged me to deepen my own understanding of financial concepts and the ways those concepts can be interpreted through differing priorities and backgrounds. I will always be grateful for the opportunity to enhance my peers' financial well-being and look forward to advocating for financial literacy in residency and beyond!
